

A Unique Approach to Tax Minimization

Often, clients' advisors are not in communication with each other in developing a comprehensive strategy addressing tax planning. The Winfield Group takes a unique style in embracing a team approach to maximize the value to the client, as all advisors are developing a robust and cohesive plan, incorporating CPAs, tax attorneys, and investment strategies.

Through the implementation of our advanced strategies, most high income earners still have opportunities to significantly reduce their tax bill. In working with The Winfield Group, we will explore both current tax deduction opportunities, as well as long term tax minimization strategies that are best suited for your individual situation.
